§ 17a-248g. Birthing-to-three funding. Fees for services. Insurance coverage. Regulations. Authority of advanced practice registered nurse to order services: Department of Developmental Services

(a) Subject to the provisions of this section, funds appropriated to the lead agency for purposes of section 17a-248, sections 17a-248b to 17a-248f, inclusive, this section and sections 38a-490a and 38a-516a shall not be used to satisfy a financial commitment for services that would have been paid from another public or private source but for the enactment of said sections, except for federal funds available pursuant to Part C of the Individuals with Disabilities Education Act, 20 USC 1431 et seq., except that whenever considered necessary to prevent the delay in the receipt of appropriate early intervention services by the eligible child or family in a timely fashion, funds provided under said sections may be used to pay the service provider pending reimbursement from the public or private source that has ultimate responsibility for the payment.

(b) Nothing in section 17a-248, sections 17a-248b to 17a-248f, inclusive, this section and sections 38a-490a and 38a-516a shall be construed to permit the Department of Social Services or any other state agency to reduce medical assistance pursuant to this chapter or other assistance or services available to eligible children. Notwithstanding any provision of the general statutes, costs incurred for early intervention services that otherwise qualify as medical assistance that are furnished to an eligible child who is also eligible for benefits pursuant to this chapter shall be considered medical assistance for purposes of payments to providers and state reimbursement to the extent that federal financial participation is available for such services.

(c) Providers of early intervention services shall, in the first instance and where applicable, seek payment from all third-party payers prior to claiming payment from the birth-to-three system for services rendered to eligible children, provided, for the purpose of seeking payment from the Medicaid program or from other third-party payers as agreed upon by the provider, the obligation to seek payment shall not apply to a payment from a third-party payer who is not prohibited from applying such payment, and who will apply such payment, to an annual or lifetime limit specified in the third-party payer's policy or contract.

(d) The commissioner, in consultation with the Office of Policy and Management and the Insurance Commissioner, shall adopt regulations, pursuant to chapter 54, providing public reimbursement for deductibles and copayments imposed under an insurance policy or health benefit plan to the extent that such deductibles and copayments are applicable to early intervention services.
(e) The commissioner shall establish and periodically revise, in accordance with this section, a schedule of fees based on a sliding scale for early intervention services. The schedule of fees shall consider the cost of such services relative to the financial resources of the state and the parents or legal guardians of eligible children, provided that on and after October 6, 2009, the commissioner shall (1) charge fees to such parents or legal guardians that are sixty per cent greater than the amount of the fees charged on the date prior to October 6, 2009; and (2) charge fees for all services provided, including those services provided in the first two months following the enrollment of a child in the program. Fees may be charged to any such parent or guardian, regardless of income, and shall be charged to any such parent or guardian with a gross annual family income of forty-five thousand dollars or more, except that no fee may be charged to the parent or guardian of a child who is eligible for Medicaid. Notwithstanding the provisions of subdivision (8) of section 17a-248, as used in this subsection, "parent" means the biological or adoptive parent or legal guardian of any child receiving early intervention services. The lead agency may assign its right to collect fees to a designee or provider participating in the early intervention program and providing services to a recipient in order to assist the provider in obtaining payment for such services. The commissioner may implement procedures for the collection of the schedule of fees while in the process of adopting or amending such criteria in regulation, provided the commissioner posts notice of intention to adopt or amend the regulations on the eRegulations System, established pursuant to section 4-173b, within twenty days of implementing the policy. Such collection procedures and schedule of fees shall be valid until the time the final regulations or amendments are effective.

(f) The commissioner shall develop and implement procedures to hold a recipient harmless for the impact of pursuit of payment for early intervention services against lifetime insurance limits.

(g) Notwithstanding any provision of title 38a relating to the permissible exclusion of payments for services under governmental programs, no such exclusion shall apply with respect to payments made pursuant to section 17a-248, sections 17a-248b to 17a-248f, inclusive, this section and sections 38a-490a and 38a-516a. Except as provided in this subsection, nothing in this section shall increase or enhance coverages provided for within an insurance contract subject to the provisions of section 10-94f, subsection (a) of section 10-94g, subsection (a) of section 17a-219b, subsection (a) of section 17a-219c, sections 17a-248, 17a-248b to 17a-248f, inclusive, this section, and sections 38a-490a and 38a-516a.

(h) Notwithstanding any provision of the general statutes or the regulations of Connecticut state agencies, the signature on an individualized family service plan of an advanced practice registered nurse, working within said nurse's scope of practice in collaboration with a physician licensed to practice medicine in this state, in accordance with section 20-87a, and performing or directly supervising the primary care services for children enrolled in the birth-to-three program, shall be deemed sufficient to order all such services included in the
individualized family service plan and shall be deemed sufficient by the Department of Social Services to substantiate a claim for federal financial participation.
