This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (c), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (i), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The provision of Section 41-7-193(1) regarding substantial compliance of the projection of need as reported in the current State Health Plan is waived for the purposes of this paragraph. The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (i) shall not exceed sixty (60) beds. If the skilled nursing facility authorized by the certificate of need issued under this paragraph is not constructed and fully operational within eighteen (18) months after July 1, 1994, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need, if it is still outstanding, and shall not issue a license for the skilled nursing facility at any time after the expiration of the eighteen-month period.

(j) The department may issue certificates of need to allow any existing freestanding long-term care facility in Tishomingo County and Hancock County that on July 1, 1995, is licensed with fewer than sixty (60) beds. For the purposes of this paragraph (j), the provisions of Section 41-7-193(1) requiring substantial compliance with

the projection of need as reported in the current State Health Plan are waived. From and after July 1, 1999, there shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the beds in the long-term care facilities that were authorized under this paragraph (j).

(k) The department may issue a certificate of need for the construction of a nursing facility at a continuing care retirement community in Lowndes County. The total number of beds that may be authorized under the authority of this paragraph (k) shall not exceed sixty (60) beds. From and after July 1, 2001, the prohibition on the facility participating in the Medicaid program (Section 43-13-101 et seq.) that was a condition of issuance of the certificate of need under this paragraph (k) shall be revised as follows: The nursing facility may participate in the Medicaid program from and after July 1, 2001, if the owner of the facility on July 1, 2001, agrees in writing that no more than thirty (30) of the beds at the facility will be certified for participation in the Medicaid program, and that no claim will be submitted for Medicaid reimbursement for more than thirty (30) patients in the facility in any month or for any patient in the facility who is in a bed that is not Medicaid-certified. This written agreement by the owner of the facility shall be a condition of licensure of the facility, and the agreement shall be fully binding on any subsequent owner of the facility if the ownership of the facility is transferred at any time after July 1, 2001. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than thirty (30) of the beds in the facility for participation in the Medicaid program. If the facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than thirty (30) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the written agreement.

(l) Provided that funds are specifically appropriated therefor by the Legislature, the department may issue a certificate of need to a rehabilitation hospital in Hinds County for the construction of a sixty-bed long-term care nursing facility dedicated to the care and treatment of persons with severe disabilities including persons with spinal cord and closed-head injuries and ventilator dependent patients. The provisions of Section 41-7-193(1) regarding substantial compliance with projection of need as reported in the current State Health Plan are waived for the purpose of this paragraph.

(m) The State Department of Health may issue a certificate of need to a county-owned hospital in the Second Judicial District of Panola County for the conversion of not more than seventy-two (72) hospital beds to nursing facility beds, provided that the recipient of the certificate of need agrees in writing that none of the beds at the nursing facility will be certified for participation in the Medicaid program (Section 43-13-101 et seq.), and that no claim will be submitted for Medicaid reimbursement in the nursing facility in any day or for any patient in the nursing facility. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the nursing facility if the ownership of the nursing facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify any of the beds in the nursing facility for participation in the Medicaid program. If the nursing facility violates the terms of the written agreement by admitting or keeping in the nursing facility on a regular or continuing basis any patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the nursing facility, at the time that the department determines, after a hearing complying with due process, that the nursing facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement. If the certificate of need authorized under this paragraph is not issued within twelve (12)

months after July 1, 2001, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after July 1, 2001, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. However, if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(n) The department may issue a certificate of need for the new construction, addition or conversion of skilled nursing facility beds in Madison County, provided that the recipient of the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (n), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (n) shall not exceed sixty (60) beds. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 1998, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after July 1, 1998, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. However, if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(o) The department may issue a certificate of need for the new construction, addition or conversion of skilled nursing facility beds in Leake County, provided that the recipient of the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (o), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any

patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (o) shall not exceed sixty (60) beds. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 2001, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after July 1, 2001, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. However, if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(p) The department may issue a certificate of need for the construction of a municipally owned nursing facility within the Town of Belmont in Tishomingo County, not to exceed sixty (60) beds, provided that the recipient of the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (p), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The provision of Section 41-7-193(1) regarding substantial compliance of the projection of need as reported in the current State Health Plan is waived for the purposes of this paragraph. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 1998, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after July 1, 1998, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. However, if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(q)

(i) Beginning on July 1, 1999, the State Department of Health shall issue certificates of need during each of the next four (4) fiscal years for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in each county in the state having a need for fifty (50) or more additional nursing facility beds, as shown in the fiscal year 1999 State Health Plan, in the manner provided in this paragraph (q). The total number of nursing facility beds that may be authorized by any certificate of need authorized under this paragraph (q) shall not exceed sixty (60) beds.

(ii) Subject to the provisions of subparagraph (v), during each of the next four (4) fiscal years, the department shall issue six (6) certificates of need for new nursing facility beds, as follows: During fiscal years 2000, 2001 and 2002, one (1) certificate of need shall be issued for new nursing facility beds in the county in each of the four (4) Long-Term Care Planning Districts designated in the fiscal year 1999 State Health Plan that has the highest need in the district for those beds; and two (2) certificates of need shall be issued for new nursing facility beds in the two (2) counties from the state at large that have the highest need in the state for those beds, when considering the need on a statewide basis and without regard to the Long-Term Care Planning Districts in which the counties are located. During fiscal year 2003, one (1) certificate of need shall be issued for new nursing facility beds in any county having a need for fifty (50) or more additional nursing facility beds, as shown in the fiscal year 1999 State Health Plan, that has not received a certificate of need under this paragraph (q) during the three (3) previous fiscal years. During fiscal year 2000, in addition to the six (6) certificates of need authorized in this subparagraph, the department also shall issue a certificate of need for new nursing facility beds in Amite County and a certificate of need for new nursing facility beds in Carroll County.

(iii) Subject to the provisions of subparagraph (v), the certificate of need issued under subparagraph (ii) for nursing facility beds in each Long-Term Care Planning District during each fiscal year shall first be available for nursing facility beds in the county in the district having the highest need for those beds, as shown in the fiscal year 1999 State Health Plan. If there are no applications for a certificate of need for nursing facility beds in the county having the highest need for those beds by the date specified by the department, then the certificate of need shall be available for nursing facility beds in other counties in the district in descending order of the need for those beds, from the county with the second highest need to the county with the lowest need, until an application is received for nursing facility beds in an eligible county in the district.

(iv) Subject to the provisions of subparagraph (v), the certificate of need issued under subparagraph (ii) for nursing facility beds in the two (2) counties from the state at large during each fiscal year shall first be available for nursing facility beds in the two (2) counties that have the highest need in the state for those beds, as shown in the fiscal year 1999 State Health Plan, when considering the need on a statewide basis and without regard to the Long-Term Care Planning Districts in which the counties are located. If there are no applications for a certificate of need for nursing facility beds in either of the two (2) counties having the highest need for those beds on a statewide basis by the date specified by the department, then the certificate of need shall be available for nursing facility beds in other counties from the state at large in descending order of the need for those beds on a statewide basis, from the county with the second highest need to the county with the lowest need, until an application is received for nursing facility beds in an eligible county from the state at large.

(v) If a certificate of need is authorized to be issued under this paragraph (q) for nursing facility beds in a county on the basis of the need in the Long-Term Care Planning District during any fiscal year of the four-year period, a certificate of need shall not also be available under this paragraph (q) for additional nursing facility

beds in that county on the basis of the need in the state at large, and that county shall be excluded in determining which counties have the highest need for nursing facility beds in the state at large for that fiscal year. After a certificate of need has been issued under this paragraph (q) for nursing facility beds in a county during any fiscal year of the four-year period, a certificate of need shall not be available again under this paragraph (q) for additional nursing facility beds in that county during the four-year period, and that county shall be excluded in determining which counties have the highest need for nursing facility beds in succeeding fiscal years.

(vi) If more than one (1) application is made for a certificate of need for nursing home facility beds available under this paragraph (q), in Yalobusha, Newton or Tallahatchie County, and one (1) of the applicants is a county-owned hospital located in the county where the nursing facility beds are available, the department shall give priority to the county-owned hospital in granting the certificate of need if the following conditions are met:

1. The county-owned hospital fully meets all applicable criteria and standards required to obtain a certificate of need for the nursing facility beds; and
2. The county-owned hospital's qualifications for the certificate of need, as shown in its application and as determined by the department, are at least equal to the qualifications of the other applicants for the certificate of need.

(r)

(i) Beginning on July 1, 1999, the State Department of Health shall issue certificates of need during each of the next two (2) fiscal years for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in each of the four (4) Long-Term Care Planning Districts designated in the fiscal year 1999 State Health Plan, to provide care exclusively to patients with Alzheimer's disease.

(ii) Not more than twenty (20) beds may be authorized by any certificate of need issued under this paragraph (r), and not more than a total of sixty (60) beds may be authorized in any Long-Term Care Planning District by all certificates of need issued under this paragraph (r). However, the total number of beds that may be authorized by all certificates of need issued under this paragraph (r) during any fiscal year shall not exceed one hundred twenty (120) beds, and the total number of beds that may be authorized in any Long-Term Care Planning District during any fiscal year shall not exceed forty (40) beds. Of the certificates of need that are issued for each Long-Term Care Planning District during the next two (2) fiscal years, at least one (1) shall be issued for beds in the northern part of the district, at least one (1) shall be issued for beds in the central part of the district, and at least one (1) shall be issued for beds in the southern part of the district.

(iii) The State Department of Health, in consultation with the Department of Mental Health and the Division of Medicaid, shall develop and prescribe the staffing levels, space requirements and other standards and requirements that must be met with regard to the nursing facility beds authorized under this paragraph (r) to provide care exclusively to patients with Alzheimer's disease.

(s) The State Department of Health may issue a certificate of need to a nonprofit skilled nursing facility using the Green House model of skilled nursing care and located in Yazoo City, Yazoo County, Mississippi, for the construction, expansion or conversion of not more than nineteen (19) nursing facility beds. For purposes of this paragraph (s), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan and the provisions of Section 41-7-197 requiring a formal

certificate of need hearing process are waived. There shall be no prohibition or restrictions on participation in the Medicaid program for the person receiving the certificate of need authorized under this paragraph (s).

(t) The State Department of Health shall issue certificates of need to the owner of a nursing facility in operation at the time of Hurricane Katrina in Hancock County that was not operational on December 31, 2005, because of damage sustained from Hurricane Katrina to authorize the following: (i) the construction of a new nursing facility in Harrison County; (ii) the relocation of forty-nine (49) nursing facility beds from the Hancock County facility to the new Harrison County facility; (iii) the establishment of not more than twenty (20) non-Medicaid nursing facility beds at the Hancock County facility; and (iv) the establishment of not more than twenty (20) non-Medicaid beds at the new Harrison County facility. This written agreement by the owner of the nursing facilities shall be a condition of the issuance of the certificates of need under this paragraph (t), and the agreement shall be fully binding on any later owner or owners of either facility if the ownership of either facility is transferred at any time after the certificates of need are issued. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than fifty (50) of the beds at the Hancock County facility or more than forty-nine (49) of the beds at the Harrison County facility for participation in the Medicaid program. If the Hancock County facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than fifty (50) patients who are participating in the Medicaid program, or if the Harrison County facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than forty-nine (49) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility that is in violation of the agreement, at the time that the department determines, after a hearing complying with due process, that the facility has violated the agreement.

The facility shall be authorized to keep such ventilator dependent or otherwise medically dependent pediatric patients beyond age twenty-one (21) in accordance with regulations of the State Board of Health. For purposes of this paragraph (u), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived, and the provisions of Section 41-7-197 requiring a formal certificate of need hearing process are waived. The beds authorized by this paragraph shall be counted as pediatric skilled nursing facility beds for health planning purposes under Section 41-7-171 et seq. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the psychiatric residential treatment facility if the ownership of the facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than thirty (30) of the beds in the psychiatric residential treatment facility for participation in the Medicaid program for the use of any patients other than those who are participating only in the Medicaid program of another state. If the psychiatric residential treatment facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than thirty (30) patients who are participating in the Mississippi Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement.

reimbursement for more than fifteen (15) patients in the psychiatric residential treatment facility in any day or for any patient in the psychiatric residential treatment facility who is in a bed that is not Medicaid-certified. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the psychiatric residential treatment facility if the ownership of the facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than fifteen (15) of the beds in the psychiatric residential treatment facility for participation in the Medicaid program. If the psychiatric residential treatment facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than fifteen (15) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement.

As a condition of issuance of the certificate of need under this paragraph, the facility shall give priority in admissions to the child/adolescent psychiatric residential treatment facility beds authorized under this paragraph to patients who otherwise would require out-of-state placement. The Division of Medicaid, in conjunction with the Department of Human Services, shall furnish the facility a list of all out-of-state patients on a quarterly basis. Furthermore, notice shall also be provided to the parent, custodial parent or guardian of each out-of-state patient notifying them of the priority status granted by this paragraph. For purposes of this paragraph, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of child/adolescent psychiatric residential treatment facility beds that may be authorized under the authority of this paragraph shall be sixty (60) beds. (i) The department may issue certificates of need to any person for any purpose described in this subsection, provided that the hospital, psychiatric hospital or chemical dependency hospital does not participate in the Medicaid program (Section 43-13-101 et seq.) at the time of the application for the certificate of need and the owner of the hospital, psychiatric hospital or chemical dependency hospital agrees in writing that the hospital, psychiatric hospital or chemical dependency hospital will not at any time participate in the Medicaid program or admit or keep any patients who are participating in the Medicaid program in the hospital, psychiatric hospital or chemical dependency hospital. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the hospital, psychiatric hospital or chemical dependency hospital, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the hospital, psychiatric hospital or chemical dependency hospital will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this subparagraph (i), and if such hospital, psychiatric hospital or chemical dependency hospital at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the hospital, psychiatric hospital or chemical dependency hospital who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the hospital, psychiatric hospital or chemical dependency hospital, at the time that the department determines, after a hearing complying with due process, that the hospital, psychiatric hospital or chemical dependency hospital has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subparagraph (i) and in the written agreement by the recipient of the certificate of need.

(ii) The department may issue a certificate of need for the conversion of existing beds in a county hospital in Choctaw County from acute care beds to child/adolescent chemical dependency beds. For purposes of this subparagraph (ii), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the hospital receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

(iii) The department may issue a certificate or certificates of need for the construction or expansion of child/adolescent psychiatric beds or the conversion of other beds to child/adolescent psychiatric beds in Warren County. For purposes of this subparagraph (iii), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under the authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

If by January 1, 2002, there has been no significant commencement of construction of the beds authorized under this subparagraph (iii), or no significant action taken to convert existing beds to the beds authorized under this subparagraph, then the certificate of need that was previously issued under this subparagraph shall expire. If the previously issued certificate of need expires, the department may accept applications for issuance of another certificate of need for the beds authorized under this subparagraph, and may issue a certificate of need to authorize the construction, expansion or conversion of the beds authorized under this subparagraph.

(iv) The department shall issue a certificate of need to the Region 7 Mental Health/Retardation Commission for the construction or expansion of child/adolescent psychiatric beds or the conversion of other beds to child/adolescent psychiatric beds in any of the counties served by the commission. For purposes of this subparagraph (iv), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under the authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

(v) The department may issue a certificate of need to any county hospital located in Leflore County for the construction or expansion of adult psychiatric beds or the conversion of other beds to adult psychiatric beds, not to exceed twenty (20) beds, provided that the recipient of the certificate of need agrees in writing that the adult psychiatric beds will not at any time be certified for participation in the Medicaid program and that the hospital will not admit or keep any patients who are participating in the Medicaid program in any of such adult psychiatric beds. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the hospital if the ownership of the hospital is transferred at any time after the issuance of the certificate of need. Agreement that the adult psychiatric beds will not be certified for participation in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this subparagraph (v), and if such hospital at any time after the issuance of the certificate of need, regardless of the ownership of the hospital, has any of such adult psychiatric beds certified for participation in the Medicaid program or admits or keeps any Medicaid patients in such adult psychiatric beds, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the hospital at the time that the department determines, after a hearing complying with due process, that the hospital has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subparagraph and in the written agreement by the recipient of the certificate of need.

(vi) The department may issue a certificate or certificates of need for the expansion of child psychiatric beds or the conversion of other beds to child psychiatric beds at the University of Mississippi Medical Center. For purposes of this subparagraph (vi), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under the authority of this subparagraph shall not exceed fifteen (15) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the hospital receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

(b) From and after July 1, 1990, no hospital, psychiatric hospital or chemical dependency hospital shall be authorized to add any child/adolescent psychiatric or child/adolescent chemical dependency beds or convert

any beds of another category to child/adolescent psychiatric or child/adolescent chemical dependency beds without a certificate of need under the authority of subsection (1)(c) of this section.

(5) The department may issue a certificate of need to a county hospital in Winston County for the conversion of fifteen (15) acute care beds to geriatric psychiatric care beds.

(6) The State Department of Health shall issue a certificate of need to a Mississippi corporation qualified to manage a long-term care hospital as defined in Section 41-7-173(h) (xii) in Harrison County, not to exceed eighty (80) beds, including any necessary renovation or construction required for licensure and certification, provided that the recipient of the certificate of need agrees in writing that the long-term care hospital will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the long-term care hospital who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the long-term care hospital, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the long-term care hospital will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this subsection (6), and if such long-term care hospital at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the long-term care hospital, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subsection and in the written agreement by the recipient of the certificate of need. For purposes of this subsection, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived.

(7) The State Department of Health may issue a certificate of need to any hospital in the state to utilize a portion of its beds for the “swing-bed” concept. Any such hospital must be in conformance with the federal regulations regarding such swing-bed concept at the time it submits its application for a certificate of need to the State Department of Health, except that such hospital may have more licensed beds or a higher average daily census (ADC) than the maximum number specified in federal regulations for participation in the swing-bed program. Any hospital meeting all federal requirements for participation in the swing-bed program which receives such certificate of need shall render services provided under the swing-bed concept to any patient eligible for Medicare (Title XVIII of the Social Security Act) who is certified by a physician to be in need of such services, and no such hospital shall permit any patient who is eligible for both Medicaid and Medicare or eligible only for Medicaid to stay in the swing beds of the hospital for more than thirty (30) days per admission unless the hospital receives prior approval for such patient from the Division of Medicaid, Office of the Governor. Any hospital having more licensed beds or a higher average daily census (ADC) than the maximum number specified in federal regulations for participation in the swing-bed program which receives such certificate of need shall develop a procedure to insure that before a patient is allowed to stay in the swing beds of the hospital, there are no vacant nursing home beds available for that patient located within a fifty-mile radius of the hospital. When any such hospital has a patient staying in the swing beds of the hospital and the hospital receives notice from a nursing home located within such radius that there is a vacant bed available for that patient, the hospital shall transfer the patient to the nursing home within a reasonable time after receipt of the notice. Any hospital which is subject to the requirements of the two (2) preceding sentences of this subsection may be suspended from participation in the swing-bed program for a reasonable

period of time by the State Department of Health if the department, after a hearing complying with due process, determines that the hospital has failed to comply with any of those requirements.

(8) The Department of Health shall not grant approval for or issue a certificate of need to any person proposing the new construction of, addition to or expansion of a health care facility as defined in subparagraph (viii) of Section 41-7-173(h), except as hereinafter provided: The department may issue a certificate of need to a nonprofit corporation located in Madison County, Mississippi, for the construction, expansion or conversion of not more than twenty (20) beds in a community living program for developmentally disabled adults in a facility as defined in subparagraph (viii) of Section 41-7-173(h). For purposes of this subsection (8), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan and the provisions of Section 41-7-197 requiring a formal certificate of need hearing process are waived. There shall be no prohibition or restrictions on participation in the Medicaid program for the person receiving the certificate of need authorized under this subsection (8).

(9) The Department of Health shall not grant approval for or issue a certificate of need to any person proposing the establishment of, or expansion of the currently approved territory of, or the contracting to establish a home office, subunit or branch office within the space operated as a health care facility as defined in Section 41-7-173(h)(i) through (viii) by a health care facility as defined in subparagraph (ix) of Section 41-7-173(h).

(10) Health care facilities owned and/or operated by the state or its agencies are exempt from the restraints in this section against issuance of a certificate of need if such addition or expansion consists of repairing or renovation necessary to comply with the state licensure law. This exception shall not apply to the new construction of any building by such state facility. This exception shall not apply to any health care facilities owned and/or operated by counties, municipalities, districts, unincorporated areas, other defined persons, or any combination thereof.

(11) The new construction, renovation or expansion of or addition to any health care facility defined in subparagraph (ii) (psychiatric hospital), subparagraph (iv) (skilled nursing facility), subparagraph (vi) (intermediate care facility), subparagraph (viii) (intermediate care facility for the mentally retarded) and subparagraph (x) (psychiatric residential treatment facility) of Section 41-7-173(h) which is owned by the State of Mississippi and under the direction and control of the State Department of Mental Health, and the addition of new beds or the conversion of beds from one category to another in any such defined health care facility which is owned by the State of Mississippi and under the direction and control of the State Department of Mental Health, shall not require the issuance of a certificate of need under Section 41-7-171 et seq., notwithstanding any provision in Section 41-7-171 et seq. to the contrary.

(12) The new construction, renovation or expansion of or addition to any veterans homes or domiciliaries for eligible veterans of the State of Mississippi as authorized under Section 35-1-19 shall not require the issuance of a certificate of need, notwithstanding any provision in Section 41-7-171 et seq. to the contrary.

(13) The repair or the rebuilding of an existing, operating health care facility that sustained significant damage from a natural disaster that occurred after April 15, 2014, in an area that is proclaimed a disaster area or subject to a state of emergency by the Governor or by the President of the United States shall be exempt from all of the requirements of the Mississippi Certificate of Need Law (Section 41-7-171 et seq.) and any and all rules and regulations promulgated under that law, subject to the following conditions:

(a) The repair or the rebuilding of any such damaged health care facility must be within one (1) mile of the pre-disaster location of the campus of the damaged health care facility, except that any temporary post-disaster health care facility operating location may be within five (5) miles of the pre-disaster location of the damaged health care facility;

(b) The repair or the rebuilding of the damaged health care facility (i) does not increase or change the complement of its bed capacity that it had before the Governor's or the President's proclamation, (ii) does not increase or change its levels and types of health care services that it provided before the Governor's or the President's proclamation, and (iii) does not rebuild in a different county; however, this paragraph does not restrict or prevent a health care facility from decreasing its bed capacity that it had before the Governor's or the President's proclamation, or from decreasing the levels of or decreasing or eliminating the types of health care services that it provided before the Governor's or the President's proclamation, when the damaged health care facility is repaired or rebuilt;

(c) The exemption from Certificate of Need Law provided under this subsection (13) is valid for only five (5) years from the date of the Governor's or the President's proclamation. If actual construction has not begun within that five-year period, the exemption provided under this subsection is inapplicable; and

(d) The Division of Health Facilities Licensure and Certification of the State Department of Health shall provide the same oversight for the repair or the rebuilding of the damaged health care facility that it provides to all health care facility construction projects in the state.

For the purposes of this subsection (13), "significant damage" to a health care facility means damage to the health care facility requiring an expenditure of at least One Million Dollars (\$1,000,000.00).

(14) The State Department of Health shall issue a certificate of need to any hospital which is currently licensed for two hundred fifty (250) or more acute care beds and is located in any general hospital service area not having a comprehensive cancer center, for the establishment and equipping of such a center which provides facilities and services for outpatient radiation oncology therapy, outpatient medical oncology therapy, and appropriate support services including the provision of radiation therapy services. The provisions of Section 41-7-193(1) regarding substantial compliance with the projection of need as reported in the current State Health Plan are waived for the purpose of this subsection.

(15) The State Department of Health may authorize the transfer of hospital beds, not to exceed sixty (60) beds, from the North Panola Community Hospital to the South Panola Community Hospital. The authorization for the transfer of those beds shall be exempt from the certificate of need review process.

(16) The State Department of Health shall issue any certificates of need necessary for Mississippi State University and a public or private health care provider to jointly acquire and operate a linear accelerator and a magnetic resonance imaging unit. Those certificates of need shall cover all capital expenditures related to the project between Mississippi State University and the health care provider, including, but not limited to, the acquisition of the linear accelerator, the magnetic resonance imaging unit and other radiological modalities; the offering of linear accelerator and magnetic resonance imaging services; and the cost of construction of facilities in which to locate these services. The linear accelerator and the magnetic resonance imaging unit shall be (a) located in the City of Starkville, Oktibbeha County, Mississippi; (b) operated jointly by Mississippi State University and the public or private health care provider selected by Mississippi State University through a request for proposals (RFP) process in which Mississippi State University selects, and the Board of Trustees of State Institutions of Higher Learning approves, the health care provider that makes the best overall

proposal; (c) available to Mississippi State University for research purposes two-thirds ($\frac{2}{3}$) of the time that the linear accelerator and magnetic resonance imaging unit are operational; and (d) available to the public or private health care provider selected by Mississippi State University and approved by the Board of Trustees of State Institutions of Higher Learning one-third ($\frac{1}{3}$) of the time for clinical, diagnostic and treatment purposes. For purposes of this subsection, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived.

(17) The State Department of Health shall issue a certificate of need for the construction of an acute care hospital in Kemper County, not to exceed twenty-five (25) beds, which shall be named the “John C. Stennis Memorial Hospital.” In issuing the certificate of need under this subsection, the department shall give priority to a hospital located in Lauderdale County that has two hundred fifteen (215) beds. For purposes of this subsection, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan and the provisions of Section 41-7-197 requiring a formal certificate of need hearing process are waived. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person or entity receiving the certificate of need authorized under this subsection or for the beds constructed under the authority of that certificate of need.

(18) The planning, design, construction, renovation, addition, furnishing and equipping of a clinical research unit at any health care facility defined in Section 41-7-173(h) that is under the direction and control of the University of Mississippi Medical Center and located in Jackson, Mississippi, and the addition of new beds or the conversion of beds from one (1) category to another in any such clinical research unit, shall not require the issuance of a certificate of need under Section 41-7-171 et seq., notwithstanding any provision in Section 41-7-171 et seq. to the contrary.

(19) [Repealed]

(20) Nothing in this section or in any other provision of Section 41-7-171 et seq. shall prevent any nursing facility from designating an appropriate number of existing beds in the facility as beds for providing care exclusively to patients with Alzheimer’s disease.
